

Dear Residency Applicant,

Thank you for your interest in our Postgraduate Year One (PGY1) Pharmacy Residency at Sanford USD Medical Center in Sioux Falls, South Dakota!

Sanford USD Medical Center's PGY1 Pharmacy Residency is ASHP-accredited and is designed to provide exceptional, tailored experiential learning while facilitating professional growth and development of the pharmacy resident. Our program is based on 4-week learning experiences in addition to longitudinal learning experiences that occur over the course of the residency year. We strive to customize the residency year and learning experiences to each resident's individual needs and pride ourselves on the flexibility necessary to provide this customization. Our program requires experiences in Internal Medicine, Pediatrics, Critical Care, Anticoagulation, and Medication Safety. We offer a breadth of elective learning experiences including Emergency Medicine, Pharmacogenetics, Infectious Disease, Nutrition, Nephrology/Transplant, Oncology, Neonatology, and Ambulatory Anticoagulation Services. Each resident is required to complete a large-scale project over the course of the year and will attend the ASHP Midyear Clinical Meeting, SDSHP Annual Meeting, and the Midwest Residency Conference, all as part of the residency program.

Currently, our residents provide decentralized pharmacy services every third weekend. This includes pharmacokinetic monitoring, anticoagulation management, nutrition management, renal dose management and order verification.

We collaborate with the South Dakota State University College of Pharmacy to provide our residents with opportunities to teach and precept through the completion of a Teaching Certificate Program. This is a required longitudinal experience for our residents and is coordinated by SDSU College of Pharmacy.

Residents are provided paid health insurance and 24 days of Paid-Time-Off (includes holidays). The resident stipend is competitive and updated annually.

**To apply for the PGY1 residency at Sanford USD Medical Center in Sioux Falls, you must submit the following:**

- Letter of intent (include clinical areas of interest and reason for pursuing a residency)
- Current Curriculum Vitae
- College transcript(s)
- Three reference submissions

**All application materials and deadline will be managed through PhORCAS.**

We require an on-site interview for all qualified applicants. Interviews will be conducted with multiple candidates each day and will include a case review and presentation by each applicant.

We appreciate your interest in the Sanford USD Medical Center (Sioux Falls) Pharmacy Residency! If you have any questions please feel free to contact us.

Sincerely,
